## Summary

I'm a student at YMCA University and currently pursuing B. Tech. from Computer Science and during this time, I have learned C, C++, Web development and Python programming languages.

I'm hands on in all stages of the programming cycle, from planning and design to testing (definitely not an expert because I am a student right now). No two days are the same for me; my tasks may involve learning algorithms, altering code, trying new Projects, brainstorming ideas or integrating new systems.

Something that I love about programming is the opportunity to work with people from a wide range of disciplines.

Some of the projects I have developed during the last 12 months include:

- Yoga Mart – A Professional E-Commerce Website.
- Chat Bot – A Chat Bot that gives you advice regarding your Health issues.
- To-Do List – This is a list of all the works you set for today and it reminds you to do them at a given time.

## Education

### NGF College of Engineering and Technology

Bachelor of Technology - BTech, Computer Science

Aug 2021 - Aug 2025

## Licenses & Certifications

### Certified Python Developer - Center of Excellence - Artificial Intelligence

T/PYT/701512/22

## Skills

Python (Programming Language) • NumPy • pandas • Matplotlib • Natural Language Processing (NLP) • Web Development • HTML • Cascading Style Sheets (CSS) • JavaScript • Object-Oriented Programming (OOP)
